Fuse ATO . 20A: 20: ... Turn signal/hazard system. Fuse FLB/PAL 295 . 40A: 4: Combination light switch. Fuse FLB/PAL 295 . 50A: 5:

window fully, push the window switch firmly down and release it. The window automatically goes all the way down. To stop the window from going all the way down, pull back on the window switch briefly. To open the driver's window only partially, push the window switch down lightly and hold it. The window will stop as soon as you release the switch.

To operate, power windows use a set of electric motors, switches, and relays inside the doorframe that interact with the cables and tracks to open and close the window.
