12 pack of Energizer Ultimate Lithium AA batteries. Energizer Ultimate Lithium AA batteries are the world's longest lasting AA batteries. Superior performance in extreme temperatures from -40 degrees F to 140 degrees F ensure reliable use in all seasons. These double A batteries are leak proof batteries, based on standard use

They use a switched inductor to regulate the charging with an IC. Since the USB plug and charging circuit are inside the battery and take up space, then the cell itself is smaller than an ordinary AA battery. Therefore the battery capacity of these rechargeable Li-ion batteries is less that an equivalently sized NiMH battery cell.

When deciding between rechargeable and non-rechargeable AA lithium batteries, several factors should guide your choice: 1. Device Energy Demands. For devices with high energy requirements or frequent use, rechargeable lithium batteries are often the optimal choice. Their cost-effectiveness and reduced environmental impact make them a smart ...

Non-Rechargeable AA Lithium Batteries. Non-rechargeable lithium AA batteries are commonly used in low-drain gadgets. These gadgets can be very low power or occasional power for a long time. You can apply these for your remote controls, smoke detectors, or wall clocks.

The outdoor unit needs 2 AA batteries and they specifically recommend lithium-ion ones because they work better in the cold. But they are hard to find. Mostly they are "photo" size batteries that won't fit in the battery compartment. The one AA size I did find was 3.6 V (it said lithium but not lithium-ion).
