Alternative Power Systems helps keep the power running by offering solutions to keep the lights on, such as a backup generator. Thanks to our many years in the field, we have access to the ...

The folks who built my house in the early '70s must have been back-to-the-land warriors because it's completely off-grid. When my partner and I bought it, the property had a functioning--although undersized--solar energy system, but that was destroyed by a lightning strike a few years ago, and we've been plugged into the neighbor's house ever since while we ...
