

Are tesla solar panels expensive

Are Tesla Solar panels expensive?

Tesla is often synonymous with luxury. Despite coming across as a high-end brand, Tesla solar panels are pretty affordable. Coming in at about \$2.50 per watt, a Tesla solar system is cheaper than the average \$3.00 per watt price tag most solar installers offer.

Is Tesla a good solar company?

Tesla offers low-profile solar panels, which are likely cheaper than those from other national companies. Those guaranteed low prices, matched with quality panels, batteries and inverters mean Tesla likely offers more solar power for less money than other national players. Tesla customers might lose some of that value in customer service.

How much does a Tesla Solar System cost?

Tesla quoted me \$22,538 for an 8.5 kW system, about \$2.65 per watt, not including savings from federal solar tax credits. This price puts Tesla among the more affordable solar options on the market. Tesla will also match the cost of similarly sized solar systems for competitor quotes received within 14 days of an original quote.

How much does a Tesla Solar Roof cost?

The cost of a Tesla Solar Roof can be prohibitive, depending on the size of your roof, how much power your home needs and the condition of your current roof. Installing a 12.57 kW Tesla Solar Roof costs an average of \$154,000, including roof replacements costs and two Tesla Powerwalls. This is the price before incentives.
TOTAL EST. COST

Does Tesla match solar panel prices?

Tesla has also suddenly changed its solar panel prices in the recent past. Tesla will match any installer who quotes a lower price. If that quote comes within 14 days and is for an array of the same size or larger, Tesla will match the price on a dollar-per-watt basis. All you need to do is to submit the competing quote through your Tesla account.

Are Tesla Solar panels a cheapest option?

Tesla solar panels remain one of the cheapest solar panel installation options available. If you find a cheaper option, Tesla will match the price (given the competing quote is for an equal array and comes soon after your quote from Tesla).

All 50 states. Warranty: 25 years. Our Preferred Solar Installers. Tesla is just one of many popular companies in the solar industry. However, there are several other brands we strongly recommend for our readers. Use the ...
