

# Asme journal solar energy engineering impact factor

What is the Journal of solar energy engineering?

Along with announcements and notes of interest, the Journal of Solar Energy Engineering publishes technical papers, technical brief notes, and discussions on all aspects of solar derived energy for generation of mechanical and electrical power, including both active and passive solar applications.

What is the ASME Journal of thermal science & engineering applications?

The ASME Journal of Thermal Science and Engineering Applications focuses on the dissemination of information of permanent interest in applied thermal sciences and engineering and is intended to be complementary to the ASME Journal of Heat and Mass Transfer, which focuses on fundamental research.

Does ASME publish special issues?

ASME continuously publishes Special Issues in emerging areas. Stay up to date on the latest call for papers if you'd like to submit. Why Publish in ASME Journals?

The Journal of Solar Energy Engineering - Including Wind Energy and Building Energy Conservation - publishes research papers that contain original work of permanent interest in all areas of solar energy and energy conservation, as well as discussions of policy and regulatory issues that affect renewable energy technologies and their implementation.

**Aim and Scope.** The Journal Of Solar Energy Engineering, Transactions Of The Asme is a research journal that publishes research related to Energy. This journal is published by the The American Society of Mechanical Engineers (ASME). The ISSN of this journal is 15288986, 01996231. Based on the Scopus data, the SCImago Journal Rank (SJR) of journal of solar ...

Research papers that address performance and analysis of solar energy systems should be submitted to the ASME Journal of Solar Energy Engineering, and papers that address performance and analysis of building systems should be submitted to ASME Journal of Engineering for Sustainable Buildings and Cities.

The Journal of Nuclear Engineering and Radiation Science is ASME's latest title within the energy sector. The publication is for specialists in the nuclear/power engineering areas of industry, academia, and government.

Journal of Solar Energy Engineering Journal of Thermal Science and Engineering Applications Journal of Tribology Journal of Turbomachinery Journal of Verification, Validation and Uncertainty Quantification Journal of Vibration and Acoustics ASME journals are available online via The ASME Digital Collection and in print.

**Abstract.** This study evaluates the uncertainty in speed-up factors predicted using the Reynolds-Averaged Navier-Stokes equations to model flow over moderately complex forested terrain and considers its effect on the uncertainty in wind energy calculations. All simulations are solved using the open-source software openfoam v.2.4.0 with a modified k- $\epsilon$  turbulence ...

It is our honor to announce that the Journal of Solar Energy Research (JSER) is indexed by SCOPUS and also licensed by the I.R an Ministry of Science, Research, and Technology and has received the Scientific-Research (Elmi-Pajouheshi) License.

The Journal of Solar Energy Engineering - Including Wind Energy and Building Energy Conservation - publishes research papers that contain original work of permanent interest in all areas of solar energy, wind energy, and energy conservation, as well as discussions of policy and regulatory issues that affect renewable energy technologies and their implementation.

The Official Journal of the Solar Energy, the official journal of the, is devoted exclusively to the science and technology of solar energy applications. ISES is an UN-accredited membership-based NGO founded in 1954.

The latest impact factor of JOURNAL OF SOLAR ENERGY ENGINEERING-TRANSACTIONS OF THE ASME and all the other Web of Science journals is released on 20th June 2024 by Clarivate. Through this web page, researchers can check the impact factor, total citation, journal quartile, and journal aim & scope.

**About the Journal.** The ASME Journal of Heat and Mass Transfer disseminates information of permanent interest in the areas of heat and mass transfer. Contributions may consist of results from fundamental research that apply to thermal energy or mass transfer in all fields of mechanical engineering and related disciplines. Read more...
