Are the Banks systems worth the money? Do you get enough bang for ... Workhorse Chassis Owner. Join Date: May 2014. Location: Central Florida. ... I have a 2005 Pace Arrow with the 8.1, and I was thinking of the Banks Power Pack as well, but after much reading and consideration, I think that I will be going with Brazel's Ultra Power ECM upgrade ...

I have an 05 National Dolphin on a Workhorse w22 chassis with the 8.1 liter chevy engine. I had the spark plugs, wires, and fuel filter replaced 2 years (approximately 6000 miles) ago. Last week climbing Sherwin grade out of of Bishop, CA it lost power and seemed to run rough with some missing. Was a hot day around 95F.

From all accounts it seemed people are happy with them. Yesterday I called on a Winnebago Sightseer that has a Chevy 8.1 workhorse chassis. Without a Ford- Chevy debate is there an advantage from one to the other

Banks engineering power system for chevy 8 1 workhorse

or is it personal preference. The seller claimed to have owned both and said the Workhorse was much better.

I came across a 2009 maintenance sheet by Workhorse, their part# WSD060607. #30 says "Change Power Steering Fluid" and has a check mark in the 50/50K column. Too inept to scan and post here. Ultrarvproducts p/n W8003092 lets you know there is an internal filter, but it does not show the actual filter.

It is a very solid and sturdy chassis that was first put into production about 30 years ago. The then-current workhorse chassis was an upgrade of the old P30 and P32 chassis that were being used in a lot of RVs, trucks and so on.. In about 2000 or so, Workhorse widened the track on the P 32 which put the front tires in line with the outer rear tires.

Banks engineering power system for chevy 8 1 workhorse

Yesterday, after driving for a steady 5 hrs, I was just completing my trip in my 2001 Fleetwood Southwind with the 8.1 liter gm fuel injected engineering, it started losing power. Accelerating away 8.1 injected vortec losing power - iRV2 Forums

8.1 Workhorse Losing Power: Alleyman: Workhorse and Chevrolet Chassis Motorhome Forum: 14: 03-16-2015 10:56 PM: 8.1 liter loss of power under a load: Cybersoundz: Entegra Owner's Forum: 1: 01-13-2015 06:41 PM: Workhorse W22 - 8.1L Missing under load: deputydog: Workhorse and Chevrolet Chassis Motorhome Forum: 8: 03-30-2008 02:50 PM

The Banks Power Pack only changes one or two parameters and I personally wouldn't spend money on it. Their headers are nice, but the movement of the front O2 sensors farther back in the exhaust and at two different distances from the heads to me results in potential fueling issues that the computer can compensate for when closed loop with trims but may ...

I drive mountainous roads and started noticing hesitation and loss of power on inclines. ... It can get 180 degrees under where the fuel line is. Best fix is the Banks headers with single exhaust on the right side of the frame. That fixed all the problems on my 2006 Winnebago 38J Workhorse W24 8.1 and Allison 6 Speed transmission, 35,000 miles ...
