

Basseterre (St Kitts), July 26 (IANS) All-rounder Tim David credited the hard work behind his power-hitting after delivering a blistering performance, smashing Australia's fastest T20I ...

With energy costs rising and Australia's renewable energy targets ramping up, the federal government solar battery rebate has never been more appealing. If you live in Queensland, New South Wales, or Victoria, you may be able to claim ...

The Small-scale Renewable Energy Scheme is an Australian Government initiative that encourages investment in small-scale renewable energy. It provides incentives to households and businesses to install small ...

Forecasts for performance and PV contribution to demand are only shown at State (not 2-digit postcode) level. Solcast provides more detailed forecasts of power output and irradiance for large and small scale solar, for ...

Intellihub is proud to announce a groundbreaking partnership with Bunnings to launch Zelora --a new solar and battery subscription service designed to make home electrification more ...

Perth-based energy storage and off-grid power system specialist Magellan Power has launched a \$15 million funding round to boost its manufacturing capabilities and support a "significant ...

Solar energy is becoming an increasingly popular source of electricity in Australia. As of 2023, rooftop solar photovoltaic (PV) systems account for over 10% of Australia's electricity supply, ...

Tim David unleashed a spectacular display of power-hitting, smashing the fastest T20I century by an Australian. This breathtaking innings secured a thrilling six-wicket victory for his team, giving them an unassailable 3-0 lead in the five ...

An off-grid solar system's size depends on factors such as your daily energy consumption, local sunlight availability, chosen equipment, the appliances that you're trying to run, and system configuration.

The infrastructure buildings responsible for the reverse osmosis and filtration processes are "largely complete," with final touches underway. The plant is expected to start providing water "in a few weeks" time," addressing shortages ...

A densely populated region in Asia, with very limited space for large solar parks or other large-scale renewable energy infrastructure, scarce natural resources, and heavy reliance on energy ...
