

BEIJING, July 7, 2025 /PRNewswire/ -- On July 3, the Digital Finance Forum of the Global Digital Economy Conference 2025 was held at the Beijing Banking & Insurance Business Park. The ...

Commodity prices in China, from steel to polysilicon, have soared this month as investors grow confident that Beijing is serious about tackling industrial overcapacity. Prices for nine major ...

From AI data centers to industrial microgrids and remote infrastructure, TerraFlow Energy enables power resilience where failure isn't an option. With U.S.-based manufacturing and a focus on ...

The rapid expansion of renewable energy, particularly solar and wind power, is crucial for achieving carbon neutrality in the energy sector. By 2030 and 2060, renewable energy is projected to account for 40% and 80% of ...

Contemporary industrial microgrids prioritize net-zero carbon emission strategies while generating economic benefits through energy arbitrage. Their granular energy management capabilities ...

Microgrids (MGs) technologies, with their advanced control techniques and real-time monitoring systems, provide users with attractive benefits including enhanced power quality, stability, ...

Shambhu Sau and B. G. Fernandes, "Modular multilevel converter based variable speed drives with constant capacitor ripple voltage for wide speed range", 43rd Annual Conference of the IEEE Industrial Electronics Society, ...

Introduces a novel two-stage robust optimization framework for scheduling carbon-free microgrids with decision-dependent uncertainties (DDUs). Proposes dynamically adaptive polyhedral ...

European gourmet meat supplier Recla has upgraded the on-site power at its Italian facility with a new Capstone Green Energy C1000 Signature Series Microturbine. Capstone Green Energy "s ...

Beijing's manufacturers remain under stress. Industrial profits in China fell once again in June, official data showed, with persistent deflationary pressures and intense price competition ...

- China's industrial sectors face severe overcapacity, prompting Beijing's 2025 capacity cuts and price controls in steel, refining, and machinery. - State-owned enterprises (SOEs) struggle with weak margins (0.71% steel profit in 2024) ...

BEIJING, July 7, 2025 /PRNewswire/ -- On July 3, the Digital Finance Forum of the Global Digital Economy

Beijing industrial microgrids

Conference 2025 was held at the Beijing Banking & Insurance Business Park. The ...

Abstract: New power systems aiming to make clean, low-carbon, safe, flexible and efficient power supply is a key measure to achieve the "dual carbon" target. However, with the widespread access of renewable energy, ...

Sidel's plant in Beijing has rooftop solar photovoltaic (PV) system has now achieved full grid connection. Thousands of PV panels now form a blue armor-like array across the facility, ...

The public furore about price wars in some of China's biggest sectors has raised hope that Beijing may finally take direct action to reduce the country's excess industrial capacity. The tougher rhetoric of President Xi Jinping, whose ...

Microgrids have been widely used in industrial parks, islands and remote areas due to their flexible and efficient characteristics. Many countries in the world have established their own ...

It's still early days on what already feels like a long road, but the movement to create a multi-customer microgrid utility for Cuyahoga County, Ohio, moved a huge step forward earlier this ...
