

Best portable lithium battery pack

Does a rechargeable power bank have a lithium-ion battery?

Nearly every rechargeable power bank you can buy (and most portable devices) contain a lithium-ion battery. These beat other current battery types in terms of size-to-charge capacity, and have even increased in energy density by eight fold in the past 14 years.

What are the best wireless portable chargers & power banks?

For Qi-compatible devices, we also have a separate guide to the best wireless portable chargers and power banks. The best replacement for your original charger is the Nekteck 60W USB-C GaN Charger. It's cheaper and smaller but just as powerful and reliable.

Which rechargeable batteries are best?

After running through several brands, I've found Eneloop rechargeable batteries to be the longest-lasting and most reliable. The fast Panasonic charger can recharge any combination of AA and AAA batteries in less than four hours, and you can sometimes get it bundled in a pack that includes four AA Eneloop rechargeable batteries.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

What is the best portable laptop charger?

When wall outlets are scarce, a portable laptop charger provides a handy backup for travelers or remote workers. Mophie's Powerstation Pro AC is our favorite. The Belkin BoostCharge Pro is your best bet for charging a single device wirelessly. It has MagSafe capabilities, a long cord, and a handy built-in stand.

Which battery chargers are compatible with Android phones?

Qi is the dominant standard for compatible Android phones (up to 15W), while Apple iPhones rely on MagSafe charging (up to 25W). iPhones will charge wirelessly on Qi chargers (7.5W) and Qi2 chargers (15W). Some battery makers have built Qi or MagSafe-compatible wireless charging into the surfaces of their portable batteries.

Always read the fine print or spec sheet to see the exact capacity. For reference, a capacity of 512Wh is roughly 7x more than our top pick for best portable battery pack, the Mophie PowerStation XXL.

The EcoFlow Delta 2 is a fantastically capable mid-range power station, which is able to drive all your power-hungry appliances. In our view it has more than enough power for any camping trip with an 1800W

Best portable lithium battery pack

onboard inverter - meaty! The original Delta 1300 was crowd-funded by Ecoflow back in 2019 to great success, having an insanely fast charging capability via mains.
