Is Fresno a good place for solar power?

Places with more sun tend to have a broader range of price options. With an average of 277 days of sun per year, Fresno is a prime location for solar power. There are many solar companies in California that service Fresno from Tower District to Roosevelt and beyond or anywhere else. We reviewed them to let you know what companies are the best.

How do I choose a Fresno solar company?

Seek out Fresno solar companies that have a minimum of 3.5 out of 5 stars in customer ratings on Google Reviews and similar review websites. The company should also have a positive rating on Better Business Bureau (BBB). You should read through past customer reviews to get insight into other homeowners' thoughts about the company.

Are solar panels a good investment in Fresno?

Although solar panels call for a major upfront investment, you can reduce your energy bills over the long run. According to the U.S. Energy Information Administration (EIA), transitioning to solar energy allows Fresno homeowners to save \$1,100 on average each year. Different solar companies provide different services.

Is Fresno a solar city?

Fresno, California, is a city that is committed to the adoption of renewable energy. The city offers a range of local and state-level solar incentives to make solar power more accessible to its residents.

Does Fresno have a solar tax credit?

The federal solar tax credit represents the largest financial incentive for solar panel installation in Fresno. The State of California cut back its net metering program last year, lowering what you'll be paid for energy sold back to the grid. There are also property tax exemptions available.
