Apart from his relentless faith on the game-changing potential of nuclear fusion and the accelerated rollout of renewable energy (RE) investments, Gates qualified that wider array of innovations are exceptionally required for ...

by Mark Chediak and Mark Bergen, Bloomberg. Alphabet Inc.'s secretive X moonshot lab is spinning off an energy-storage project with backing from billionaires including Jeff Bezos and Bill Gates.

Akshat Rathi, writing for Quartz: The world needs radical new energy technologies to fight climate change. In 2016, Quartz reported that a group of billionaires -- including Bill Gates, Jeff Bezos, ...

READ MORE: Bill Gates and top investors launch \$1 billion clean energy fund The TerraPower project is expected to cost up to \$4 billion, half of it from the U.S. Department of Energy.

Apart from his relentless faith on the game-changing potential of nuclear fusion and the accelerated rollout of renewable energy (RE) investments, Gates qualified that wider array of innovations are exceptionally required for the world to successfully cross the energy transition maze - including the need to unlock the business operations improvement prospects ...

This year also saw the start of a new chapter in my climate work. I released my book How to Avoid a Climate Disaster and launched the Breakthrough Energy Catalyst and Fellows programs to support financing, producing, and buying new clean-energy technologies. The reason I felt confident enough to expand our efforts so significantly was the incredible ...

View the full 2023 State of the Transition here.. For me, 2023 was a year of climate dissonance. On one hand, every week seemed to bring another once-in-a-century natural disaster -- fires in Greece and Maui, deadly heat waves in India, a drought in Kenya, the sky turning orange in New York -- and still, the world pumped more greenhouse gases (GHGs) into the ...

Bill gates and billionaire friends betting energy storage

Professor Donald Sadoway remembers chuckling at an e-mail in August 2009 from a woman claiming to represent Bill Gates. The world's richest man had taken Sadoway's Introduction to Solid State Chemistry online, the message explained. Gates wondered if he could meet the guy teaching the popular MIT course the next time the billionaire was in the Boston ...

One of Bill's closest friends and business partners is Warren Buffet, a self-made billionaire who made his money in the stock market. In the film, he says that it's "Very important in life to have the right friends if they make you a better person than you would otherwise be."
