

Bioverda power systems

Does Beauparc own bioverda power systems?

In 2017, Beauparc acquired electricity producer, Bioverda Power Systems. Bioverda - formerly Irish Power Systems - extracts methane gas from landfill sites and generates electricity for resale to electricity providers.

How does bioverda generate electricity?

Operating at over twenty landfill sites across Ireland, Bioverda generates electricity through the extraction of methane gas through landfill. That same year we continued our strategic expansion into the UK market with our acquisition of WSR Recycling.

Does bioverda produce electricity from landfill gas?

Bioverda says the acquisition makes it the main supplier of electricity generated from landfill gas in Ireland. IPS currently has installed electrical power generating capacity of 22 MWs utilising gas from landfill to generate electricity for supply to the national grid.
