

Bose solo tv sound system remote not working

Why does my Bose remote control not work?

If your Bose remote control does not work or only sometimes controls the functions of your Bose product, try the following: If the plastic wrapper is still on the remote control, try removing it. New remotes are typically wrapped in plastic.

What if I have more than one Bose remote control?

A remote control from another product will have different or no functionality. If you have more than one Bose remote control, refer to the owner's guide of the product you are trying to control to be sure you are using the right remote control. Was this helpful?

How do you control a Bose CineMate remote?

To control a Bose CineMate remote, press the specific source button on the remote corresponding to the source you want to use. Some Bose CineMate remotes have a similar set of source buttons, while others may require you to select the source on your TV screen.

Why isn't my Bose Lifestyle remote working?

If your Bose Lifestyle remote is not working, check if the issue could be due to sunlight or light interference from a laptop or PC. If it's near a window, close the curtains or blinds to block the sunlight. Shut down or move your laptop or PC away from the remote as the light coming from the laptop's screen can also cause interference.

How do I know if my Bose remote is working?

The remote is working if you see a blinking light when you press a button. When your remote is not within range (20ft) of your Bose soundbar or speaker, it won't communicate properly. **READ MORE:** How to connect two Bose speakers together Make sure the remote is close enough to your device, and try again.

Why is my Bose soundbar not responding to my Remote?

If your Bose soundbar or speaker is not responding to your remote, it may need to be reset. You can either soft reset or power cycle the device or do a factory reset. To soft reset, unplug your soundbar or speaker from the power outlet and plug it back in. Once it's plugged back in, wait a few seconds for it to power on.
