I replaced my roof vent cover three years ago when it started getting brittle from too much sun. The new Camco 42165 cover has a solar plate on it that powers an exhaust fan, keeping the coils and everything else cooler behind the refrigerator. I mounted the fan below the coils pointed toward the roof.

Get the solar powered on that goes on the roof for boondockers. Amazon : Camco 42165 RV Refrigerator Solar Vent System: Automotive Another mod of mine waiting on funding. Another thing to make sure of is the defroster switch in the frame of the freezer door. It uses a 12VDC heater to "Climate Control" the freezer.
