

Can the restroom be equipped with lockers

Should employees be able to lock their lockers?

Employees should be able to lock their cabinets or staff lockers to prevent their personal belongings from falling into unauthorised hands. When storing important items like their own wallets, mobile phones and personal effects, it's important that employees know they are safe and secure throughout the working day.

Are restroom cubicles accessible to all users?

Restroom cubicles should be accessible to all users, including those with mobility challenges. By installing cubicles with features like spacious interiors, appropriate handrails, and easy-to-use door mechanisms, one can ensure that everyone can use the cubicles comfortably and independently.

What are employee locker rooms & changing rooms?

Employee locker rooms and changing rooms are an important part of every workplace. Not only do they help keep the area clean and tidy, but they also increase the comfort and safety of employees. By law, changing rooms must be set up for those employees who must wear work or protective clothing and cannot change in another area for some reason.

What should a locker room look like?

Locker rooms should be large enough for employees to change clothes comfortably and store their belongings. It is also important to think about the fact that people can go to work, for example, by bicycle. Some employers support this type of transport and are ready for it.

Are locker / shower rooms gender-specific?

o Equal Locker Room Space - The District opted to continue with male and female gender-specific locker / shower rooms facilities of exactly equal size. To address some students' comfort issues around changing within the locker rooms, three changing stalls were added to each the locker room.

Should locker rooms be gender-neutral in high school facilities?

In high school facilities, the space need for locker rooms has been steadily declining as students change and shower less frequently. This reduction in space need has allowed for the inclusion of more diverse gender-neutral facilities within the same traditionally allotted program square footage.
