Central Electricity Regulatory Commission (CERC) notified the "Staff Paper on Power Market Pricing" in October, 2022. The last date to submit comments on the same is 4th November, 2022. The key ... design to bring up demand response and energy storage system. The document can be accessed here CER Opinion 1. Pay as Bid Auction (PABA): ...

The Central Electricity Regulatory Commission (CERC) has released a staff paper on Regulatory Oversight of Bidding Behavior in Power Exchanges to address unprecedented situations such as abnormal increases in power prices. The agency has called for comments on the paper until May 31, 2024.

Comments on CERC Staff Paper on Power Market Pricing cost, STU transmission charges etc) and make some returns commensurate with the risks of trading in the open market. ... 4. What should be the market design for incentivizing demand response and energy storage system (ESS)? APP view: ...

Highlights -Central Electricity Regulatory Commission (CERC) notified the "Staff Paper on Power Market Pricing" in October, 2022. The last date to submit comments on the same is 4th November, 2022. The key highlights of Staff Paper are as follows:The global electricity market scenario is explained in brief.

CERC notification No. Eco-14/1/2023-CERC dated 21st August 2023 seeking comments on the Staff Paper on Market Coupling is a welcome step towards implementation of this long pending market reform. We believe that Market Coupling would act as a key milestone in the development of the Indian Power Market

The CERC staff paper observes the absence of gate closure in India. Thus, DISCOMs can revise their schedules and retain the right to recall till the time of actual delivery of the power. This uncertainty is a major barrier to the utilisation of real time instruments and also to the sale of unrequisioned power as suggested in
