

The new liquid contains up to 6.9% hydrogen by weight, surpassing the hydrogen storage goals set by the U.S. Department of Energy for 2025. This discovery marks the beginning of a new ...

Chile is one of the countries with the greatest potential to unlock the power of green hydrogen, which is produced through electrolysis powered by renewable energy sources. Developing this market involves similar challenges as with ...

OLADE's technical note 10, entitled "Energy Storage in Latin America and the Caribbean - Current Status, Challenges and Strategic Recommendations" reports 2.5 GW of installed capacity in the region. Energy storage installations are ...

METASPACEX, a leading energy sector company, has announced a strategic partnership with Chongqing Bihe New Energy Technology Co., Ltd. (Chongqing Bihe) to enter the hydrogen ...

Chile is quickly shifting to construct extra energy technology capability, with a lot of that effort centered on renewable power sources and battery power storage techniques (BESS). The ...

Spanish renewables company Zelestra on Monday said it has achieved financial closing on its Aurora solar-plus-storage project in northern Chile after securing USD 282 million (EUR ...

Chile's Ministry of Energy is preparing a major legislative proposal aimed at jumpstarting domestic demand for green hydrogen (H<sub>2</sub>V), with a tax credit framework worth \$2.8 billion designed to ...

Hydrogen is a promising clean and renewable energy source; however, its efficient storage is one of the key challenges of establishing the sustainable hydrogen economy. The light main group ...

One notable project is the Quillagua solar-plus-storage installation in Antofagasta, which features a 221-MW solar photovoltaic plant combined with 1.2 GWh of battery energy storage. ...

The Chile Renewable Energy Market is expected to reach 25.77 gigawatt in 2025 and grow at a CAGR of 10.26% to reach 42 gigawatt by 2030. Enel Green Power Chile SpA, AES Andes S.A., Engie Energ&#237;a Chile S.A., ...
