

# Collecting photovoltaic panel pallets

What types of PV panels can a waste expert collect?

Waste Experts provide a nationwide collection service for all types of PV panels including monocrystalline, polycrystalline and thin-film amorphous, plus all associated circuitry and connectors. Our advanced fleet of vehicles can collect anything from a single PV panel right through to a full artic load or solar farm clearance.

How are PV panels billed?

Quantities above 20 PV panels arising from professional installations and solar farms are billed at cost and paid individually by the Producer (upon agreement) or by the waste holder directly. Collection will be scheduled after pre-payment. Please note that only complete pick-up request forms can be treated in due time.

How to reduce special photovoltaics (PV) waste?

Cutting down on special photovoltaics (PV) waste is a vital part of environmental protection. Recycle Solar Technologies is committed to supplying the best possible solution by Reducing, Reusing or Recycling solar equipment.. Recycle Solar PV (Photovoltaic) Panels

Where can I recycle solar panels in the UK?

There already exist several solar panel recycling companies in the UK including H&H Pro, ILM Highland, and Recycle Solar Technologies. Furthermore, around 70% of Europe's solar manufacturers are part of the worldwide PV Cycle Network.

How many solar panels can be stacked per pallet?

You should not stack more than 25-30 panels per pallet. This again ensures that your panels maintain their form for loading and removing the waste. Recycling solar panel waste brings forth a multitude of benefits, pivotal not only for businesses but also for the broader environment and the renewable energy sector.

When will my PV panels be collected?

Collection will be scheduled after pre-payment. Please note that only complete pick-up request forms can be treated in due time. PV panels prepared for pick-up need to be appropriately packed for transport on pallets or other packaging units in advance.
