

Commercial housing solar power generation installation

Should you install solar panels on your commercial property?

There are many advantages for businesses that choose to install solar panels on their commercial property. Solar power provides a cost-effective solution for companies looking to reduce their energy consumption. Commercial solar panel installations can have a payback period of as little as five years.

How can a commercial solar panel installation help your business?

Utilise a Solar PV install to reduce your power consumption from the grid. Our engineers have a vast experience in a wide range of Solar PV products. We specialise in helping you to run your business on green energy with a commercial solar panel installation.

How much do commercial solar panels cost?

According to the MCS, the average cost of a commercial solar panel installation so far in 2024 was £9790, or £1278 per kW. Obviously this covers a variety of installations so is only a rough guide. Small to medium-sized businesses can expect to spend between £16,000 and £70,000 for commercial panels.

Are commercial solar panels better than residential solar panels?

They can be installed to power both industrial processes and offices and can lead to substantial cost savings. Commercial solar panels are typically more powerful (400W-600W) than the solar panels used for domestic purposes (250W-400W), averaging 195cm x 99cm in size, compared to 167cm x 101cm for residential panels.

Are commercial solar panels a good investment for your business?

The maintenance costs for commercial solar panels is low, too. Keep the panels clear and free of debris and they'll continue to generate clean and cheaper power for 25-30 years. Another great reason to install solar panels for your business is the Smart Export Guarantee (SEG).

Can I install solar panels on my business building?

As long as you have enough roof space, you'll be allowed to install solar panels on your business' building/s with little issue. Another option is to install a solar farm, which will need local council approval. Whether you can get approval for a large-scale commercial solar system depends on factors including:
