

Commercial solar company anderson county

What are commercial solar panels?

Like residential solar options, commercial solar panels harness the power of sunlight, converting this renewable energy source into electricity to power various facilities. Commercial solar is utilized by a diverse range of businesses and institutions, including:

Who uses commercial solar?

Commercial solar is utilized by a diverse range of businesses and institutions, including: Residential solar installations are almost always on the roofs of homes because that is the best, most expansive surface area where the panels can catch the sunlight.

Do commercial contractors offer solar power?

Solar power is still an emerging energy source. Some commercial contractors do offer their services in all 50 states, while some focus on particular regions of the country. The variety of options you will have may very well depend on the region where your commercial enterprise is located.

Are commercial solar panels better than residential solar panels?

Since a commercial enterprise needs far more power than a typical residence, commercial panels will most often be larger and/or more powerful than those used in residential applications. The average solar panel for a home will have 60 or 72 cells, while a commercial solar panel will have 96 cells or more.

Can commercial solar power save money?

However, switching to solar power can save money for businesses, government agencies and nonprofit organizations while significantly reducing their carbon footprint. Like residential solar options, commercial solar panels harness the power of sunlight, converting this renewable energy source into electricity to power various facilities.

Can commercial solar panels be installed on a roof?

Roof installation is also a good option for commercial solar installation, especially since office buildings, warehouses, factories and other similar spaces often have vast, flat roofs that are ideal. However, the roof is not the only place where commercial solar panels might be installed.
