

Eaton power systems wisconsin

Where is Eaton power systems located?

Eaton will expand its power systems division facility, at 2300 Badger Drive, the company has announced. That work is to begin this fall. The company also will close and sell its division facilities at 1900 E. North St., Waukesha, and 1045 Hickory St., Pewaukee. Those operations will be consolidated at the Badger Drive facility.

Why did Eaton power systems expand?

"This expansion is part of the Eaton Power Systems Division long-term strategy to increase our volume and meet the needs of our customers," Jackie Pride, communications manager for Eaton Power Systems Division, said Friday.

Does Eaton have a distribution center?

Eaton is investing in the distribution capacity for its power quality products and connectivity solutions. The company recently opened its largest regional distribution center in Chicago and is expanding its distribution facility in Dallas to serve commercial, data center, industrial, healthcare and communications customers.

Eaton offers various Cooper Power series product maintenance, testing and troubleshooting courses as well as training and collaboration events. These events offer integration insights toward maximizing existing products while introducing industry trends, new technologies, regulations and system requirements.
