

Ecoprogetti srl

Who is ecoprogetti SRL?

Ecoprogetti srl |4,728 followers on LinkedIn. Complete Turnkey production lines The only European producer of complete PV panel production lines |ECOPROGETTI Srl Ecoprogetti is a globally active company, among the TOP 5 photovoltaic machine manufacturers for worldwide capacity.

Where are ecoprogetti products made?

Made in Italy All Ecoprogetti production solutions are thought, designed, assembled and tested in Ecoprogetti's headquarters in Carmignano di Brenta, Italy.

How did ecoprogetti become a company?

With the aim of minimizing manual work and increasing production capacity, Ecoprogetti began to build small automatic machines for its production line. Thanks to the growth of the photovoltaic industry, in 1998 Ecoprogetti became an independent reality, dedicated to the production of machinery for the photovoltaic industry.

What are ecoprogetti machines?

Ecoprogetti machines are extremely flexible and can work with different types of cells (TOPCon, Back contact, PERC, HJT, Bifacial, etc ...) and raw material in order to produce all types of photovoltaic modules. The machines are very easy to use and do not require sophisticated ordinary and extraordinary maintenance, or highly qualified personnel.

What makes ecoprogetti unique?

Ecoprogetti stands out for its commitment to quality and customization in photovoltaic (PV) manufacturing solutions. Its Italian-designed and assembled machines are a testament to superior craftsmanship and ingenuity. Starting from the vision of the highest quality PV module, they engineer manufacturing solutions that can bring this vision to life.

Why should you choose ecoprogetti?

We offer optimal automation and quality solutions at every production step, backed by comprehensive training. To support customers effectively, Ecoprogetti has Sales & Service offices in India, Dubai, USA, and Philippines. Our technology's continuous enhancements keep our production solutions at the cutting edge of market trends.

Ecoprogetti Srl Unternehmen Beschreibung Ecoprogetti is a globally active company, among the TOP 5 photovoltaic machine manufacturers for worldwide capacity. Since 1998 Ecoprogetti is specialized in machines for photovoltaic module production, with innovative and high-quality solutions for photovoltaic module manufacturing, Ecoprogetti provides ...

Ecoprogetti srl

Since 1998 the Italian firm Ecoprogetti srl has been researching, designing and constructing turnkey photovoltaic production machines and lines. At the beginning Ecoprogetti produced machines for the entire photovoltaic production chain, from silicon cleaning to ingot squaring automation and automatic cleaning lines, wafer quality control and automations for cell ...

TESTING & QUALITY. The solar simulator, electroluminescence and hi-Pot testers are the main machines used to test photovoltaic modules. These machines can be positioned at the end of the production line and along the production chain to keep the quality and efficiency of the photovoltaic modules under control after the most sensitive production phases.

Italy-based solar machinery manufacturer Ecoprogetti srl said on Friday it has launched a 50MW photovoltaic (PV) panel production line in Oman for a domestic client. The facility was installed on behalf of Oman-based Sheida Industries LLC, which now has a production base in Sohar City, Ecoprogetti said in a social media post. The new manufacturing line will ...

Ecoprogetti's stringer machines are designed to work with all the solar cells available on the market (from 166mm to 210 mm), full and half cut. The best soldering output with minimal stress given to the solar cells, realizing high-quality photovoltaic modules with minimized breakages during the transformation process.

ECOPROGETTI Srl Ecoprogetti is a globally active company, among the TOP 5 photovoltaic machine manufacturers for worldwide capacity. Specialized in Photovoltaic machines for Module Production, with innovative and high-quality solutions for photovoltaic module manufacturing, Ecoprogetti provides its customers turnkey production solutions of various levels of automation ...

MUSCAT: Ecoprogetti SRL, a leading European supplier of machinery for solar panel manufacturing plants around the world, has announced the successful completion of the production line of Oman's first solar PV project. The Omani client is Sheida Industries LLC, which has established the country's maiden solar panel manufacturing plant at ...

ECOPROGETTI Srl Ecoprogetti è un'azienda attiva a livello globale, tra i TOP 5 produttori di macchine fotovoltaiche per capacità mondiale. Specializzata in macchine fotovoltaiche per la produzione di moduli, con soluzioni innovative e di alta qualità per la produzione di moduli fotovoltaici, Ecoprogetti offre ai propri clienti soluzioni di produzione chiavi in mano con vari ...

Ecoprogetti is delivering a highly automatic line equipped with the latest premium technologies such as PERC, GLASS-GLASS and BIFACIAL for the production of high quality PV panels. The new Dutch solar module production line was set up by a well-established local Dutch Group which belongs to different business sector and it will focus only in ...

Ecoprogetti Srl, along with other industry leaders, urgently calls upon the European Commission and member states to take immediate action to protect the European photovoltaic industry. Failure to act promptly will

Ecoprogetti srl

jeopardize the achievement of Green Deal objectives and the Net-Zero Industry Act, especially in the photovoltaic sector.

Ecoprogetti's Catalogue 2024 Ecoprogetti has been providing innovative PV panels production technology to the photovoltaic industry since 1998. Download the latest catalogue with the equipment necessary to produce high quality solar panels.

The electric laminators of Ecoprogetti are an essential and very delicate part of the production of photovoltaic panels. They allow the polymerization process of the encapsulating material. This transformation process, during which the multilayer form becomes a unit, is a key step as it affects the duration of the solar panel.

4 days ago; Italy-based solar machinery manufacturer Ecoprogetti srl said on Friday it has launched a 50-MW photovoltaic (PV) panel production line in Oman for a domestic client. The facility was installed on behalf of Oman-based Sheida Industries LLC, which now has a production base in Sohar City, Ecoprogetti said in a social media post. ...

Ecoprogetti Srl Description de l'entreprise Ecoprogetti is a globally active company, among the TOP 5 photovoltaic machine manufacturers for worldwide capacity. Since 1998 Ecoprogetti is specialized in machines for photovoltaic module production, with innovative and high-quality solutions for photovoltaic module manufacturing, Ecoprogetti ...

8000SQM OF BRAND NEW PRODUCTION AREA BENEFIT FROM THE TECHNOLOGY OF TOMORROW centerno-repeat;center top;;auto50px ECOPROGETTI TEAM The Italian team continues to produce state of the art machines and our goal is to remain a growth-oriented company, providing innovative solutions, services, expertise and technologies that support our ...

Ecoprogetti proudly completed the first #MBB solar panel production line in #Bulgaria for #SolarPanelEood, a fully automated plant producing panels for residential buildings and solar parks with state-of-the-art technology. ? This exciting project, completed last year, is now expanding to produce more than 1,500 panels per day, all made from 100% European ...

A selection of Pictures of modern solar PV panel production lines made by Ecoprogetti Srl around the world. Home; About us. News & Events; Gallery; FAQ; Products. Turnkey Production lines for Solar Panels. 30MW ENTRY; 100MW SMART; 200MW SMART; 200MW FULLY; 400MW NEXT; 600MW GLOBAL; 800 MW FULLY AUTO; 1.2 GW UNIVERSAL;

The start-up phase of a new module manufacturing company can be intensive considering many points of view. Ecoprogetti, to support the customer in this delicate phase, can take care of the raw material procurement for the installation and startup of the line and can also continue to supply raw material for the ongoing production.

THE PRODUCTION EXCELLENCE OF PHOTOVOLTAIC PUBLISHED IN LA REPUBBLICA ON MARCH 4, 2023 ECOPROGETTI IS ALSO PUBLISHED ON "LA REPUBBLICA" The journalists of the historic newspaper "la Repubblica" talk to Ecoprogetti to learn more about this all-Italian company, the only one in Europe to create complete production lines for assembling and ...

Ecoprogetti's sun simulator module tester represents a new generation of sun simulator thanks to the use of LED as light source. The use of LED, more than consent a supply of radiation in triple class A fully respecting IEC 60904-09 gives more benefits like: prompt feedback, high luminosity efficiency that brings a minimal power dissipation and possibility of obtaining impulses of ...
