In 2023, EDF Energy invested £3.9 billion in building and maintaining nuclear and renewable generation in Britain. The Group is notably participating in the development of the Sizewell C nuclear power station project in Suffolk. The plant is expected to house two of the most powerful nuclear reactors in the world.

Households can earn up to 16 hours of free electricity each week of the challenge to be used the following Sunday. The amount of free electricity a household can earn is subject to change. Free electricity will be subject to a fair usage cap, and EDF will notify customers via the Energy Hub of the fair usage cap at the start of each challenge.

Our Company-wide approach to diversity, equity, and inclusion is focused on our workplace, community and business outcomes. We believe DEI is a key component to our mission of delivering renewable solutions and leading the transition to a sustainable energy future.

This also delayed the switch for another month to 1st November. This has cost me £1145 to switch until

Edf enrgy

EDF refund my over payment which could now take up to 3 months from 29th September switch date. EDF has a total disregard for the situation they created making switching as difficult as possible driven by profits not customer care.
