Who owns EDF Energy?

EDF Energy is a British integrated energy company, wholly owned by the French state-owned EDF (Electricit  de France), with operations spanning electricity generation and the sale of natural gas and electricity to homes and businesses throughout the United Kingdom.

What is EDG - energy development group?

Senegal, the "Land of Teranga", which means hospitality in Wolof, the local language, is EDG - Energy Development Group 's newest operation as we expand our footprint in Africa. We are excited to establish our presence in Dakar to participate in opportunities in Senegal's promising energy market.

How much electricity does EDF export a year?

French electricity demand has not fully recovered from a pandemic-induced downturn and EDF is set to export up to 90 terawatt hours (TWh) of electricity this year, Benayoun said. EDF typically exports about 40 TWh a year but exports have jumped in 2024, helped also by lower prices than in markets such as Germany.

What is EDG's commitment to sustainability?

Roberto Deplano, the EDG Regional Director, commented: "Our commitment to sustainability, responsible development and maximization of local content has guided every aspect of the project, and we are proud of the progress made by all stakeholders.
