

Projektom solarne elektrane Boksic je predviden i baterijski sistem za skladištenje energije (BESS), navodi se u Elaboratu o proceni uticaja na zivotnu sredinu, koji je izraden u februaru ...

Google enters long-duration energy storage (LDES) with a global commercial partnership and investment in Energy Dome. Energy Dome's CO2 Battery stores clean energy for 8-24 hours, ...

The Netherlands' aim to a carbon-neutral economy by 2050 is making it a major energy storage player in Europe. Storage solutions are needed to maintain grid stability and flexibility as ...

The top battery energy storage system company players of 2025 blend scale, specialization, and smarts. While giants like CATL and Tesla dominate headlines, specialists like Seplos prove ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBABA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

News Release US\$ 1.2 trillion in battery storage investments needed to support global renewable buildout
Grid-forming battery technology emerges as critical solution for US\$5 trillion global ...

Energy Impact Partners (EIP) is a collaborative strategic investment firm that invests in companies optimizing energy consumption and improving sustainable energy generation. Through close collaboration with its strategic ...

Google has signed its first partnership with a long-duration energy storage (LDES) company. The tech giant signed a long-term partnership with Energy Dome to support multiple commercial ...

Here are Spain's top 10 energy storage investors, who are shaping grid flexibility, energy security, and decarbonisation. These major investors are funding high-impact initiatives like lithium-ion ...

- Solar energy (45 TWh EU-wide) and 14 GW German battery storage mitigated price volatility by bridging midday/evening demand gaps during the crisis. - EU policies now prioritize grid ...

Navigating today's energy transition demands more than innovation--it requires partners who blend scale, safety, and intelligence. With the global battery energy storage system company ...

Alphabet Inc's (NASDAQ:GOOGL) search engine business Google has struck its first commercial long-duration energy storage (LDES) deal through an equity investment in and a global ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (the OBBB), which significantly rolls back many of the core tax incentives that clean energy projects have relied ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

- China's renewable energy capacity surged to 1,482 GW in 2024, surpassing coal for the first time, driven by climate policies and domestic economic strategy. - Grid modernization efforts ...

TES startups leverage technologies such as phase change materials, sensible heat storage and thermal batteries to create energy storages. ETC specializes in thermal storage, energetic efficiency, industrial wastes ...

In 2025, global energy investment is expected to reach \$3.3 trillion -- the highest level ever recorded, according to the IEA World Energy Investment Report 2025. Clean energy will account for two-thirds of that total, led by investment in ...
