

Other energy storage policy recommendations made by OLADE included reserve capacity payments, auctions for renewables-plus-storage sites, and dynamic tariffs or net billing to encourage residential and commercial energy storage ...

Nuclear power is increasingly seen as the next-generation source to support the energy demands of computing and AI infrastructure while boosting energy independence and decarbonizing at ...

As the Clean Energy Associates" (CEA) Q2 2025 ESS Supply, Technology, and Policy Report outlines, while new policy frameworks like the EU's Clean Industrial Deal State Aid Framework ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

Advancing energy storage policies, programs, and regulations to accelerate an equitable clean energy transition. Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

Looking ahead, Greece's energy sector is poised for further transformation. The country is committed to increasing the share of renewable energy in its mix, aligning with EU directives and global sustainability goals. ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage technologies. Supporting the equitable scale-up of those technologies, and the development of applications ...

As solar adoption continues to rise across Europe, understanding Net Metering Policies in Europe becomes crucial for homeowners, businesses, and energy professionals. Net metering allows solar power users to feed excess electricity ...

Energy storage policy athens

Faria Renewables has signed a loan agreement with Attica Bank for the construction of a battery energy storage system (BESS). The project is worth EUR 28 million. In addition, Cero ...

3. ****A Call for Bold Action****: The brief encourages businesses, policymakers, and regulators to rethink their approaches to energy storage and renewable energy. By incorporating LDES into ...

The decree explicitly classifies energy storage facilities and their associated grid connection infrastructure as "public utility" for the first time. This grants them legal support equivalent to ...

The global energy storage battery cell market experienced unprecedented growth in H1 2025, with shipments exceeding 250 GWh--a 100% year-over-year increase driven by coordinated policy ...

Rethinking energy security in a net-zero world As the world accelerates toward a cleaner energy future, ensuring energy security remains a complex challenge. A severe blackout in Spain and ...
