

Hybrid models, thermal energy storage and smart solar tracker systems as strategies for enhancing energy accessibility were discussed in the study. Data sources include secondary ...

Accurate State of Charge (SOC) estimation is crucial for the reliability, safety, and performance of lithium-ion (Li-ion) batteries, particularly in electric vehicles and energy storage systems. ...

While the business case has been improving, investments in thermal energy storage technologies are hampered by a lack of confidence in long-term market trends and supportive policy. Read ...

Riyadh, July 28, 2025, SPA -- Minister of Energy Prince Abdulaziz bin Salman bin Abdulaziz inaugurated on Sunday the live demonstration of Climeworks' first Direct Air Capture (DAC) ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

The review provides the results of the analysis of research publications in the field of energy economy on a global scale. The review aims to test three hypotheses and build and analyze ...

The global energy storage battery cell market experienced unprecedented growth in H1 2025, with shipments exceeding 250 GWh--a 100% year-over-year increase driven by coordinated policy ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

The decree explicitly classifies energy storage facilities and their associated grid connection infrastructure as "public utility" for the first time. This grants them legal support equivalent to ...

Bihar Unveils New Renewable Energy And Pumped Storage Policies, Signs Major MoUs Worth Thousands Of Crores A key highlight of the event was the signing of several strategic MoUs ...

This is where Long Duration Energy Storage (LDES) plays a vital role; these storage solutions ensure continuous access to clean energy while adapting to the fluctuations in renewable ...

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax
