

Africa's largest single-train fuel processing plant, Dangote Refinery, is planning to construct a 1.6 million barrels storage facility in Namibia to supply refined fuel to the Southern African market, ...

Looking ahead, Dyness will continue to uphold its brand promise as &quot; The Global Pioneering Energy Storage Solutions innovator&quot; --committed to launching forward-thinking products, ...

The upcoming project will be sited at Walvis Bay, a prominent Atlantic port city and key logistics hub in Namibia. The new storage tanks will have the capacity to hold at least 1.6 million ...

In this analysis, we profile the Top 10 Companies in the Lithium Compounds Industry - a group of mining giants, chemical producers, and vertical integrators shaping the future of energy storage.

While most of the world's vanadium is used to strengthen steel for construction, automotive, aviation, pipeline, and tooling applications, its future demand potential also lies in grid-scale ...

Nigeria's Dangote petroleum refinery plans to construct storage tanks in Namibia to hold at least 1.6 million barrels of gasoline and diesel, aimed at supplying refined fuel to southern Africa.

WALVIS BAY, July 10, 2025 - The Dangote Refinery has launched plans to construct large-scale fuel storage tanks in Namibia's Walvis Bay port, Reuters reported on Wednesday. The project ...

The energy storage flywheel market, currently valued at \$236 million in 2025, is projected to experience robust growth, driven by the increasing demand for reliable and efficient energy ...

CGN's entry into the water desalination sector in Namibia signals a strategic expansion beyond nuclear energy, a move that aligns nuclear operators with broader strategic goals of energy and water security, said Luo Zuoxian, ...

The sulfide-based solid electrolyte market is experiencing significant growth, driven by the increasing demand for safer and higher-performing batteries in electric vehicles (EVs) and ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

The global Nickel Hydroxycarbonate market is experiencing robust growth, driven by increasing demand from

the electric vehicle (EV) battery sector. Nickel Hydroxycarbonate is a crucial ...

The exploration of phenolphthalein's role in energy dissipative systems is in its early stages, with a growing market potential as energy efficiency becomes increasingly crucial. The technology is still emerging, with varying levels of ...

Zambia has started to implement a rural electrification programme aimed at providing a stable energy source to schools, healthcare facilities and communities in the country's Western ...

Africa's largest single-train fuel processing plant, Dangote Refinery, is planning to construct a 1.6 million barrels storage facility in Namibia to supply refined fuel to the Southern African market.

TotalEnergies EP Namibia B.V. (TEEPNA) and its joint venture partners--Impact Oil & Gas, NAMCOR, and QatarEnergy--plan to drill up to 40 subsea wells on the Venus Field offshore Namibia. Hydrocarbons will be ...

This aligns with Namibia's vision of a diversified energy mix including renewables, natural gas, and green hydrogen. Prof Naomab emphasises that such partnerships reaffirm NUST's ...

The country expects to achieve fully market-oriented development of the power storage industry and independent research and development of core technologies and equipment by 2030. Answering the call, local governments ...

Nigeria's Dangote Refinery is set to build fuel storage tanks in Namibia's Walvis Bay to supply gasoline and diesel to Southern African countries. The move supports the refinery's expansion ...

Dangote Refinery Expands Reach with Namibian Storage Tanks Nigeria's Dangote petroleum refinery plans to build storage tanks in Namibia, capable of holding at least 1.6 million barrels ...

Despite comprising 20% of global Development Finance Institutions (DFIs), Africa holds just 1.9% of assets, underscoring the need for capacity building through regional technical assistance ...
