

Eos energy storage edison nj

What makes EOS a good energy storage solution?

Positively ingenious. Eos is accelerating the shift to clean energy with zinc-powered energy storage solutions. Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications.

Who is EOS Energy Enterprises?

Since our founding in 2008, Eos Energy Enterprises has been on a mission to accelerate the shift to clean energy with positively ingenious solutions that transform how the world stores power. Our breakthrough aqueous zinc battery was designed to overcome the limitations of conventional lithium-ion technology.

Where is Eos headquartered?

Eos was founded in 2008 and is headquartered in Edison, New Jersey. For more information about Eos (NASDAQ: EOSE), visit eose.com. Story Continues

Why did EOS launch the Ingenuity Lab?

"The launch of the Ingenuity Lab underscores our commitment to building the energy storage solutions of the future," said Joe Mastrangelo, Chief Executive Officer of Eos.

Where are EOS batteries being deployed?

Eos batteries are being deployed at sites including a solar farm in South Carolina developed by Pine Gate Renewables and another solar farm in the Canary Islands undertaken by Enel Green Power. Both developers confirmed to Canary Media that they are working with Eos on the projects.

Are EOS batteries expensive?

Eos doesn't disclose pricing for its batteries, but Mastrangelo said the company's new manufacturing process has halved the cost of production compared to the prior generation of product, bringing its batteries into a cost-competitive range with lithium-ion batteries for longer-duration applications.

EDISON, NJ -- A new manufacturing design facility was unveiled in Edison Monday by Congressman Frank Pallone, Jr. (NJ-06). Located at Eos Energy Enterprises corporate headquarters in Edison, the ...

Eos Energy Storage, based in Edison Twp, NJ, is a leading provider of zinc-powered clean energy storage solutions, offering safe, durable, and flexible battery technology for long-duration energy storage needs.

While we're proud of the technological advances represented by the Eos Z3(TM) battery modules--our latest generation of commercialized zinc-powered energy storage--our teams at Eos Ingenuity Lab in Edison, NJ are hard at work at the next big leap.
