

Evergreen solar systems

Who is evergreen solar?

We developed our one-of-a-kind marketplace with funding from the U.S. Department of Energy to make clean home energy solutions affordable and accessible to all. Read reviews for EVERGREEN SOLAR, a Energy Efficiency, High Efficiency HVAC, Solar PV, Energy Storage company since 1996 based in Citrus Heights, CA.

Are evergreen solar panels a good choice?

We are very happy with the equipment quality and energy provided by our Evergreen Solar panels. Our true up bill is very minimal, so the number of panels (20) for our house is spot on, and finally the quote and cost was the lowest we found on Energy Sage for the latest high quality panels, with Solar Edge monitor system.

Where are evergreen solar panels made?

Evergreen said in its annual report that "historically, we have produced non-standard size rectangular wafers that were then processed into Evergreen Solar branded solar panels." Those panels were assembled in its Massachusetts facility. The company made a move to focus on industry standard size wafers, but ran out of time and funding.

How many evergreen solar panel reviews are there?

Read 10 Evergreen Solar Panel reviews or write your own review. The opinions expressed in these reviews are the opinions of consumers that submitted reviews to Roof.info. They do not necessarily represent the opinions of Roof.info.

Whether you're looking to reduce your reliance on the grid, have backup power during outages, or simply want to make the most of your solar investment, Evergreen Solar has the right solution for you.

I went solar with Evergreen Solar June 1st. My solar panels were installed the first week of August and were connected in September. I received three bills from PG& E and they were all only \$10. Which is much better than my previous bills that were over \$400. I was very skeptical of going solar because some family members have got true up bills.

Solar panel systems up to 10kW qualify for a one-head mini-split system. Systems up to 15kW may qualify for a mini-split system with up to two heads. Full home mini-split systems are available as an add-on to the one or two heads, depending on the solar panel system size. ... Evergreen Solar 163 Exchange St STE 201,
