

# Fake label of Trina photovoltaic panels

Is Trina Solar a fraud?

In what appears to be a faux pas rather than an attempt at fraud, Trina Solar (Australia) Pty Ltd has copped a rap over the knuckles for a solar panel certification slip-up.

What is Trina Solar?

China's Trina Solar is a panel manufacturing heavyweight- last year it shipped an estimated 9.7GW of module capacity globally and its panels are quite popular here in Australia.

Does Trina Solar offer residential solar panels?

Trina Solar currently offers two solar panel lines for residential solutions in the U.S.: the Vertex S/S+ and the Residential line. For solar panels, the most important specs to watch are: Efficiency: How well a solar panel captures sunlight and converts it into electricity for your home, expressed as a percentage (i.e., 22.2%).

Is Trina Solar a good brand?

Trina Solar competes with some of the top brands on the market, but they're not number one in any category. Trina Solar does everything pretty well (efficiency, temperature coefficient, warranties, price, etc.), but there's usually a premium solar panel brand that does it better.

How do I know if Trina Solar is right for my home?

Ultimately, the best way to determine whether Trina Solar is the best solution for your home is to review multiple quotes with different solar equipment before deciding. Read EnergySage's review of Trina Solar, based on product specifications for every Trina solar panel series, to make your solar research process easier.

What is Trina Solar's enforceable undertaking?

Trina Solar has committed to a number of actions in the enforceable undertaking, including: Offering to replace affected solar panels at no cost; whether they have been installed or not. The company will cover all costs associated with replacement.
