

Generac standby

What is a Generac standby generator?

A Generac standby generator protects your home and gives you peace of mind. When the power fails, you'll be ready. With automatic operation and 24/7/365 support from our Wisconsin headquarters, a Generac backup generator gives you added protection in an increasingly uncertain world.

How does a Generac home standby system work?

Thanks to the transfer switch technology, your backup generator can start supplying power to your home seconds after an outage begins. Whether you're home or not, your Generac home standby system kicks into action, and continues to power your home until utility power returns.

How much propane does a Generac home standby generator need?

Propane tanks that supply fuel to a Generac home standby generator must be at least 250 gallons. However, every home is different, and so is every installation.

Can I charge my EV with a Generac home standby generator?

Hello Dave, thanks for reaching out with your question. Generac's home standby generators are designed to be whole home backups, whether or not you would be able to charge your EV would depend on the energy requirements of your specific EV charger and how it is integrated into your home's electrical system.

Does Generac have a mobile link?

As the #1 selling home standby generator brand, Generac's Guardian Series generators provide the automatic backup power you need to protect your home and family during a power outage. Now coming with FREE Mobile Link, allowing you to monitor the status of your generator on a phone, tablet or computer from anywhere in the world.

Can a Generac 22kW generator run on propane?

Our dual-fuel home standby generators can run on natural gas or liquid propane. Customers say the Generac 22kW whole house generator offers exceptional reliability and peace of mind during power outages. Users appreciate its automatic start feature, seamless transfer of power, and quiet operation during tests.
