

Guo Jing s lazy wind curling hair iron style

Do rotating curling irons really work?

But, then we discovered rotating curling irons, which literally do the work for you. They're ideal for anyone who needs extra assistance when styling their hair. As the name suggests, rotating curling irons wind your hair up the barrel automatically, creating perfectly uniform, bouncy curls (or waves) with little to no effort.

Who should use a curling iron?

Who It's Good For: This curling iron is great for two cohorts of people: Those who can't maneuver a traditional curling iron and those with thick, coarse hair. While it works for all hair types, the fact that it does reach higher temperatures means that it will be able to style--and hold--coarser hair.

What does a curling iron do?

Despite its name, a curling iron can do a whole lot more than curl. Actually, it's a versatile styling tool that can give you a variety of looks and works on all hair textures. If you have naturally straight hair, a curling iron can create tight ringlets, beachy waves, or a voluminous blowout-style look.

What size curling iron do I Need?

For tighter curls (or shorter hair), a smaller barrel size can help achieve ringlet-like locks on less hair. If you have thick hair, you'll want a barrel size on the curling iron for thick hair. Bottom: Since rotating curling irons rely heavily on buttons to do the work (instead of your hands), their placement and design are important.

Which curling iron is best?

The one-inch iron is great for creating curls on all hair types, and the 1.5-inch is perfect for waves, says Korab. If you've never quite mastered the "curl toward and away from your face" technique, this curling iron does the twirling work for you with its rotating one-inch barrel.

Do you need a curling iron or a wand?

Whether you're after beachy waves, a spiral, or just looking to add some definition after you air-dry your hair, there is a barrel, a heat range, and a technique that will get the job done. Curling irons, wands, and wavers work with every hair type under the sun and you really only need one solid option (okay, maybe two) in your arsenal.

Choosing the Right Curling Iron Barrel Size. The size of the curling iron barrel will determine the size of the curls you create. For naturally curly hair, a smaller barrel (1-1.5 ...
