

Is it worth getting a solar storage battery?

A solar battery allows you to store electricity produced by your solar panels and use it later or, in some cases, sell it back to the grid to make a few quid - but they're not cheap. Read on to see if it's worth getting a solar storage battery for your home... This is the first incarnation of this guide.

Is battery storage a good way to store solar energy?

Thankfully, battery storage can now offer homeowners a cost-effective and efficient way to store solar energy. Lithium-ion batteries are the go-to for home solar energy storage. They're relatively cheap (and getting cheaper), low profile, and suited for a range of needs.

How do I choose a solar battery storage system?

When choosing and installing a solar battery storage system, make sure your installer is signed up to the Renewable Energy Consumer code (RECC) or the Home Insulation and Energy Systems Contractor Scheme (HIES), as this means you'll be covered should you need to make a complaint or claim.

Can energy storage save you money?

If you have a renewable electricity generator like solar panels or a wind turbine, installing energy storage will save you money on your electricity bills. You need to weigh the potential savings against the cost of installation and how long the battery will last.

Which solar battery storage system is right for You?

The SonnenBatterie 10 is the perfect all rounder smart solar battery storage system for you if you're looking to integrate it into an existing PV system or build a new system. Because this battery comes in 3 different sizes (5.5kWh, 11kWh, or 22kWh), you're likely to be able to find one that fits your energy demand.

Why is energy storage important?

Energy storage can be useful if you already generate your own renewable energy, as it lets you use more of your low carbon energy. It reduces wasted energy and is more cost effective than exporting excess electricity. For example, you can store electricity generated during the day by solar panels in an electric battery.
