How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

How long does a solar panel's power warranty last?

Most solar panel power warranties nowadays offer linear degradation, meaning a 0.7% output loss per year. However, some manufacturers like SunPower offer a much higher output guarantee after 25 years. In the past, power warranties were stepped, guaranteeing 90% output after 10 years and 80% output after 25 years.

What is a performance warranty on solar panels?

Conclusion A performance warranty guarantees that the solar panel will not degrade below a certain percentage over a specified period, usually 25 to 30 years. This type of warranty is essential because solar panels naturally degrade over time.

What is a power warranty for solar panels?

A power warranty for solar panels states the expected output of a panel after certain periods of time (eg 5 years, 10 years, 20 years). All solar panels are affected by gradual degradation in efficiency, so the output will decrease. If the panels do not perform as promised, you may be able to get them replaced or repaired - but some power warranties do not cover defects.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

Why do solar panels have warranties?
