

How to assemble the Cody solar bracket

How to install a solar panel bracket?

To install a solar panel bracket, apply adhesive to the upper side of the bracket (this is where the solar panel will be positioned). Position and press firmly the side bracket along the side of the solar panel and repeat this process with the other side bracket. Allow the adhesive to dry as per the product specifications.

How do solar panel brackets function?

Solar panel brackets function by being installed through fastening bolts or applying adhesive on the mounting rails onto a flat surface. Solar panels should be installed at an angle to allow the cells to receive as much sunlight as possible.

How do I install rigid solar panels on my roof?

EcoFlow's rigid solar panels come with a EcoFlow Tilt Mount Bracket for easy rooftop installation. The components include four fixing brackets, two adjustable brackets, and screws. This should be all you need to mount rigid solar panels on the roof or any other flat surface on your home that receives direct sunlight.

How do I Mount my solar panels?

Depending on various factors, your solar panel mounting process might differ slightly. For this guide, we use the EcoFlow Tilt Mount Bracket for EcoFlow 400W Rigid Solar Panel as an example. Make sure to consult your equipment manuals before proceeding to install your panels.

How to install a solar panel?

The first step is to attach the fixing bracket to the solar panel. Lay the solar panel face-down on the tarp or canvas to protect the photovoltaic surface. You want to be sure the mounting holes on the back of the panel align with the holes in the fixing bracket. Don't modify the module frame because doing so may void your manufacturer's warranty.

How do you attach a solar panel to a wall?

Mark where you want to attach your triangle brackets to the wall. Use a tape measure to make sure they're installed as far apart as your solar panel is wide. Screw the brackets to the wall, using a level to make sure they're vertical. I used two screws per bracket -- one at the top and bottom of the vertical side. Here's a video of this step:
