

How to sell solar panels

How do you sell solar panels?

To sell solar panels, the first thing you need to do is find potential customers. This can be done through methods such as canvassing, door-to-door sales, or online marketing. Remember, solar panels are a big investment, so you need to make sure that potential customers feel like they're getting a good deal.

Should you sell solar panels if you have a battery backup?

When selling solar panels to clients with battery backups, it's recommended to offer panels that are at least three times more powerful than the capacity of the client's backup battery. For instance, if the client has a 200A battery, you should suggest a solar panel with a minimum capacity of 500W to ensure the battery charges effectively throughout the day.

Why should you buy solar panels?

When it comes to buying solar panels, there are a few key motivators for buyers. The first is the cost savings in terms of reduced electricity bills. The average electric bill in the U.S. is between \$100 to \$200 per month so that's a lot of savings. And as solar prices fall, more and more consumers are taking the plunge.
