

Huawei Photovoltaic Inverter App

What is Huawei fusion solar app?

Huawei FusionSolar app enables you to manage your smart PV plant anytime and anywhere. It supports wizard-based commissioning and site deployment, and enables mobile O&M, allowing users to easily learn about plant status and making PV plant management simple and smart. The FusionSolar app is secure and reliable.

How does Huawei fusionsolar work?

The platform includes a web dashboard that can be accessed from computers, and the Huawei FusionSolar app for smartphones, compatible with Android and iOS. Using the Smart PV Management System, you can visualize how electricity is being generated and used.

How to download fusion solar app?

Huawei mobile phone users: Search for FusionSolar in Huawei AppGallery. iPhone users: Search for FusionSolar in the App Store. Other mobile phone users: Select method 2. Method 2: Scan the QR code to download and install the app. Users who select method 2 can select the download method based on the mobile phone type.

How do I download a Huawei app?

Huawei mobile phone users: Download from Huawei AppGallery. Non-Huawei phone users: Download on a browser. When you select Download via the Browser, if a security warning message is displayed indicating that the app is from an external source, tap ALLOW.

How do I connect my fusion solar inverter?

Run the FusionSolar app and go to the Device commissioning screen. (Perform this step only for the FusionSolar app.) Code scanning: Tap Connect to access the scanning screen, place the QR code or bar code of the solar inverter in the scan frame. The device will be automatically connected after the code is identified.

How to install sun2000 app?

SUN2000 APP: Search for "SUN2000" in Huawei AppGallery, download the latest installation package, and install the SUN2000 app by following the instructions. In areas (such as the UK) where the FusionSolar app is not available, or when a third-party management system is used, only the SUN2000 app can be used for commissioning.
