What is HUD's 'solar for all' initiative?

Ensuring Residents of HUD-Assisted Multifamily Housing Benefit from Solar Energy: Washington, D.C.'s "Solar for All" initiative aims to bring the benefits of solar energy to 100,000 families with low to moderate incomes in the District of Columbia.

How much does HUD spend on energy?

HUD's own "energy bill" - the amount that HUD spends annually on heating, lighting, and cooling its portfolio of public and assisted housing and section 8 vouchers - reached the \$5 billion mark in 2007. Public Housing utilities cost more than \$1 billion per year. Third, energy costs affect economic development.

Why do we need solar energy?

When paired with battery storage and/or microgrids, solar energy provides resiliency power outages. Solar helps us meet our renewable energy portfolio standards, active in thirty-three states and one territory.

Hud Energy offers dependable battery backup solutions that allow you to store solar energy for use when you need it most. Keep your business running smoothly or maintain comfort at home with a solar battery backup system designed to meet your energy needs.

¿¿¿ngase en contacto con su Embajador de Energía Solar local.
