

The project will leverage Solvay's proven expertise in developing salt caverns infrastructure - originally created for soda ash production operations and repurposed into storage under the ...

A request for proposals from six qualified bidders interested in developing a 22.5 MW solar-plus-battery project is now live in the Cayman Islands. The project will be the islands' largest solar ...

Scale Green Energy, a subsidiary of Spanish energy company Enagás, has received more than EUR8 million in European Union funding to deploy a network of renewable hydrogen refueling ...

Recycling and resource recovery solutions provider Enva has launched Battery Safe Box, a purpose-engineered solution for the safe storage and transportation of lithium battery waste, ...

A hydrogen lifeline from Iberia to Central Europe Stretching roughly 400 to 450 kilometers under the Mediterranean, BarMar will directly link Barcelona in Spain with Marseille in France. It's not ...

Italy ranks among Europe's top battery storage markets, driven by its MACSE auctions, capacity market, and early merchant efforts. Competition is growing amid rising micro and macro ...

eCap Marine says it will supply 8 MW of hydrogen fuel cell systems for four zero-emission vessels under construction for Norway's Møre S&jø and logistics firm Samskip, with deliveries expected ...

Europe is diving deep--literally--into a cleaner energy future. Three energy heavyweights-- Enagás, Natran (a subsidiary of Engie), and Teréga --have just launched a bold joint venture ...

Promoted by ErasmoPower2X SL, with Dutch investors, it will be linked to the Puertollano Hydrogen Valley. It will be powered by photovoltaic solar energy and will also have 70 MW ...

Solvay and Enagás have signed an agreement to develop a hydrogen storage hub in Polanco, Cantabria. The project will leverage Solvay's proven expertise in developing salt caverns ...

Eight of these initiatives -- more than 50% of the total-- will be developed on Spanish soil, securing EUR292 million and 891 MW of installed capacity, equivalent to 38% of the total awarded ...

Montenegro has set a ceiling price of EUR65 (\$76.11)/MWh for its first solar auction, which will offer 12-year contracts for difference (CfD) for up to 250 MW of capacity. The auction is scheduled ...

The UK government has published a new "Solar Roadmap" policy paper setting out how it plans to achieve

Hydrogen energy storage spain

45-47 GW of deployed solar capacity by 2030, from nearly 19 GW as of May 2025. ...

The emirate of Sharjah has commissioned its first utility-scale solar plant to power the Sajaa Gas Complex and export surplus electricity to the grid. The 60 MWp SANA facility, developed in ...

Scale Green Energy, the renewable energy arm of Enagás, just locked in more than EUR8 million in funding from the European Climate, Infrastructure and Environment Executive Agency ...

Enagás" subsidiary, Scale Green Energy, will receive over EUR8 million to deploy a network of renewable hydrogen refuelling stations in Spain, following the signing of the Grant Agreement ...

This initiative supports Spain's ambition to become a key producer and exporter of renewable hydrogen. The caverns will provide a safe, flexible, and scalable solution for storing renewable ...

Renewables developer Edify Energy has unveiled plans for a major 2.4 GWh solar and integrated battery energy storage facility in Australia, adding to its growing portfolio of power generation ...

Enagás" hydrogen subsidiary, Scale Green Energy, has secured over EUR8 million in EU funding to deploy six large-scale renewable hydrogen refuelling stations across Spain--each with a daily ...

Spain is leading the development of green hydrogen in Europe thanks to investment and public aid. Advances in infrastructure and industrial clusters, especially in key regions such as ...

The global market for hydrogen storage alloys used in Nickel-Metal Hydride (Ni-MH) batteries is experiencing steady growth, driven by increasing demand for energy storage solutions in ...
