

"India is on track to achieve the milestone of 50% renewable energy share in its total installed power generation capacity by the end of the year," said union power minister Manohar Lal ...

Commerce and Industry Minister Piyush Goyal has urged the energy storage industry to reduce import dependence, especially from specific countries, and explore diverse supply sources. He ...

In September 2024, India sought bids for the supply of 6,000 MW of electricity from renewable energy projects integrated with storage solutions for peak-hour supply. The demand for energy ...

India needs to explore battery technologies other than lithium-ion, which is currently leading the industry due to its high storage capacity and quick charging, suggested experts participating in ...

What we are seeing now is the beginning of a market shift with storage becoming central to India's renewable energy strategy." Karnataka led in cumulative BESS installations with 36% of the ...

Industry experts demanded that India needs to expand non-lithium energy storage technologies to address its rapidly growing and diverse energy demands. They emphasised the necessity for ...

India's renewable energy capacity is nearing 50% of its total installed power, with expectations to meet this target by year's end, according to Union Power Minister Manohar Lal. This progress ...

India added 341 megawatt-hours (MWh) of battery energy storage capacity in 2024, marking a more than sixfold increase from the 51 MWh added in 2023, according to the "India's Energy ...

India's Battery Energy Storage System (BESS) market is projected to grow at 22% CAGR (2024-2030) driven by renewable integration and grid stability needs. This step-by-step guide covers ...

Government officials and industry leaders from more than 20 countries are set to participate in the 11th edition of India Energy Storage Week (IESW) 2025, scheduled from July 8 to July 10, ...

Battery Energy Storage Plant: Prostarm Info Systems is investing INR25 crore to establish a 1.2 GWh battery energy storage system manufacturing facility in Haryana by 2026, enhancing ...

Battery Energy Storage System (BESS) Market Analysis by Mordor Intelligence The Battery Energy Storage System Market size is estimated at USD 76.69 billion in 2025, and is expected to reach USD 172.17 billion by 2030, at ...
