Is Infinity Solar a good company?

Great solar company from the sales side and installation. Infinity is very honest and reputable. Im glad I chose them for my renewable option Fantastic experience from start to finish! Very easy process and would recommend Infinity Solar! \*\*\*\*\*was super knowledgeable and helpful during my first appointment!

Who is Infinity Solar USA?

At Infinity Solar USA, everyone knows everyone. From Construction, to warehousing, to the technicians that do repairs, and even the company's salesforce. Everyone on our end is communicating and working together to help you change your life and more so the world. People that you can trust and know will get the job done right.

How does Infinity Solar work?

Infinity breaks the process into three steps, from collecting sunlight to powering your home. To start the process of converting sunlight into electricity, the installed solar panels on your roof collect energy from the sun. The energy collected is transferred to your system's inverter, which converts it into electricity for the home to use.

Why should you choose Infinity Solar?

Although solar is a beneficial solution to many homeowners, some find the upfront cost to be a barrier. With the Infinity Solar's financing options, we can provide homeowners with a solar energy solution that makes switching to clean solar energy affordable and hassle free. Ready To Shine!

What makes Infinity Solar USA different from other solar companies?

Unlike most of our competitors, we do everything in house. Most solar companies complete their work through third party contractors, who work for their own company. This creates a line of communication that can be lacking compared to the work done from a company that is completely internal. At Infinity Solar USA, everyone knows everyone.

Who makes Infinity Solar panels?

Infinity gets its solar products from popular manufacturers in the industry, such as Enphase, SolarEdge, and Tesla. Infinity Energy includes a 25-year manufacturer warranty for all solar panels covering manufacturing defects. Customers can also get a 10-year labor warranty. Solar batteries come with a 10- to 15-year warranty, depending on the type.
