

The Battery Grade Solvents market, currently valued at \$1237 million in 2025, is projected to experience robust growth, driven by the burgeoning electric vehicle (EV) industry and the ...

Europe Battery-Grade Graphite Market Demand Across Key Industries Stay updated with Market Research Intellect's Battery-Grade Graphite Market Report, valued at USD 2.5 billion in 2024, ...

The Battery Energy Management System market in Italy is shaped by a combination of strong industrial infrastructure, a culture of innovation, and increasing regulatory alignment with EU ...

Italian automation specialist Comau has inaugurated a dedicated dry room laboratory at its headquarters in Grugliasco, aimed at enhancing its battery cell production capabilities and ...

The market for battery charger extension cables is experiencing robust growth, driven by the increasing demand for portable power solutions and the expansion of electric vehicle (EV) and ...

The Battery Monitoring Solutions market is experiencing robust growth, driven by the increasing adoption of renewable energy sources, the proliferation of electric vehicles (EVs), and the ...

The STELLAR project (Safe, sustainable, and high-throughput production of reliable lithium metal anodes for gen 4b/4c/5 batteries) addresses a critical technological challenge in the EU's ...

The battery assembly adhesives market is experiencing robust growth, driven by the burgeoning electric vehicle (EV) and energy storage system (ESS) sectors. The market's expansion is ...

His research focuses on the development of advanced lithium and sodium batteries, covering polymer, hybrid and liquid electrolyte systems, new and optimized organic and inorganic electrode materials, sustainable ...

The global market for battery chargers and maintainers is experiencing robust growth, driven by the increasing adoption of electric vehicles (EVs), the expanding renewable energy sector ...

The global battery storage systems market is experiencing robust growth, driven by the increasing adoption of renewable energy sources, the need for grid stabilization, and the rising demand for backup power solutions. The market, ...

Comau, an industrial automation specialist, has made a significant capital commitment of nearly EUR1 million to establish a state-of-the-art dry room laboratory at its headquarters in Grugliasco, ...

Italy battery research and development

On July 4, Chery Solid-State Battery Research Institute is actively expanding its team. It currently has about 50 people, mainly composed of PhDs, and is still actively recruiting talents. Chery ...

Comau has inaugurated a proprietary dry room laboratory at its Grugliasco, Italy headquarters to advance the development and validation of cell manufacturing equipment for lithium-ion and ...

Advanced Li-ion batteries have required an incredible amount of research and development to reach the point where they are now: playing a central role in important sustainability efforts, ...

Italy battery research and development
