How pvbl ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

What is the solar inverter manufacturing industry?

The solar inverter manufacturing industry focuses on producing devices that convert the variable direct current (DC) output of a photovoltaic solar panel into alternating 240V current (AC) for commercial use or feeding into an electricity grid. Companies in this industry range from multinational corporations to smaller specialized firms.
