

Lithium battery for electric wheelchair

What kind of batteries do electric wheelchairs use?

Now let's talk chemistry. Electric wheelchairs can run on two different types of batteries: deep cycle AGM (short for Absorbed Glass Mat) batteries and gel batteries. Both are a type of Sealed Lead Acid (SLA) battery.

Why do electric wheelchairs use lithium ion batteries?

The light weight of lithium-ion batteries helps electric wheelchairs move more easily. It improves mobility and allows wheelchairs to go farther without needing a recharge. Lithium-ion batteries can store a large amount of power in a small battery size. This is called having high energy density.

Can You charge a wheelchair with a lithium battery?

At LITH-TECH, all our wheelchairs are powered by lithium batteries, which is where the name LITH-TECH comes from (LITHium TECHnology). This blog covers the best practice for charging your wheelchair batteries, when you should replace them, plane-safe batteries, and more. Why Lithium for Batteries?

Can a power wheelchair be charged with a lithium phosphate battery?

Most power wheelchair electrical systems aren't designed to be compatible with lithium iron phosphate batteries. These batteries feature different charging requirements and voltages than lead-acid batteries.

Are lithium-ion batteries safe for wheelchair users?

This higher cost can put lithium-ion batteries out of budget for some wheelchair users. There are also some safety concerns with lithium-ion batteries. If they get overcharged or damaged, lithium-ion batteries can overheat, smoke, or catch fire. Proper charging and handling are very important to prevent safety issues.

What is a lithium wheelchair replacement battery?

Our lithium wheelchair replacement batteries offer more than just power--they incorporate advanced technology to redefine mobility. One key feature of our lithium replacement batteries is their smart technology integration, which enhances your wheelchair's functionality while providing added security and convenience.

Replacing your power wheelchair battery is effortless with the Vive Health MOB1029L Power Wheelchair Replacement Battery. Designed for hassle-free installation, this battery allows you to quickly and easily swap out the old battery, minimizing downtime and maximizing convenience.
