The new generation of anglers, however, are coming up in the age of lithium marine batteries. Yet it's somewhat telling how little most anglers know about lithium power. They have seen the literally "inflammatory" stories of the early days of lithium power in boats and have shied away from lithium power.

Well, Ionic lithium marine batteries can do the same thing. Unlike many other types of batteries, lithium marine batteries can maintain their charge for years. They maintain their charge even if you put them in a storage shed and don't use or keep them charged.

Our Ionic lithium batteries are completely maintenance free. Compact and Practically Weightless. Comparing lead acid to lithium is like a pile of rocks vs. a pile of feathers. Which would you rather tote on your fishing
