

Lockheed martin energy storage internship

What is an internship at Lockheed Martin?

A spot as an intern at Lockheed Martin is a fantastic opportunity for master's students of organizational psychology. Interns work directly under I/O specialists in Lockheed Martin's human resources department. The position offers students hands-on experience via shadowing and the adoption of responsibility within the office in which they intern.

Is Lockheed Martin a good employer for engineering students?

Lockheed Martin has been voted as 2024's most ideal employer for engineering students. At Lockheed Martin, our engineering internships provide a unique opportunity to immerse yourself in the world of innovation and technology. Interns engage in real-world projects that push the boundaries of aerospace, defense, and security.

What does Lockheed Martin do?

Lockheed Martin has been awarded a contract to build the first megawatt-scale, long-duration energy storage system for the U.S. Department of Defense. Help optimize the human-machine team for our customers. Work in a tech-enabled, intelligent and flexible environment.

Why did Lockheed Martin develop GridStar[®]; Flow?

For over 86 years, Lockheed Martin has invested in resilient, smart and safe energy technologies. As the clean energy evolution continues, the current dominant technologies cannot provide the durable, flexible and distributed energy storage required to sustain power for extended durations. That's why we developed GridStar[®]; Flow.

What benefits does Lockheed Martin offer?

We invest in your growth with hands-on learning, mentoring, and benefits like health insurance and paid time off. Lockheed Martin has been voted as 2024's most ideal employer for engineers and engineering interns. Our development programs are tailored to your learning style, needs and schedule.

Where is Lockheed Martin building a new battery?

Fort Carson, an Army facility south of Colorado Springs, Colorado, is set to get a very large new battery. Lockheed Martin has been awarded a contract to build the first megawatt-scale, long-duration energy storage system for the U.S. Department of Defense. Help optimize the human-machine team for our customers.

At Lockheed Martin, we apply our passion for purposeful innovation to keep people safe and solve the world's most complex challenges. Mission-Focused Innovation: From aerospace to outer space to cyber space, you can solve the world's most complex challenges for our customers. Foundational Values: Our culture of performance excellence, ethics, teamwork ...
