What is the installation manual for LONGi Solar modules?

Installation Manual for LONGi Solar Modules This manual elaborates on installation and safety use information for Solar power generating modules (hereinafter referred to as module) of LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as LONGi Solar). Please abide by all safety precautions in this guide and local regulations.

Are LONGi Solar modules safe?

The design of LONGi Solar modules conforms to the IEC 61215 and IEC 61730 standards and its application level is rated as Class A. The modules can be used for the solar PV power systems above DC 50V or 240W which the people may access to. And the modules pass IEC61730-1 and IEC61730-2, meeting requirements of Safety Class II.

How to install LONGi Solar?

LONGi modules can be installed less than 500mm but more than 50m from the seaside but stainless steel or aluminum shall be applied to contact solar PV Modules. And anti-corrosion protection shall be furnished for installation joints. See the installation requirements in Seaside Installation Instructions by LONGi Solar.

Can you walk on a LONGi Solar PV module?

DO NOT stand or walk on PV modules. Prior to beginning installation, review the Installation Manual for LONGi Solar PV Modules. Do not carry a module alone; always use two people to lift and carry. Do not drill holes in the frame of the module.

Are LONGi Solar modules corrosion resistant?

LONGi Solar modules have passed IEC61701 salty mist corrosion test, but the corrosion may occur at the joints connecting the module frame and the mounting system or grounding joints. LONGi modules can be installed less than 500mm but more than 50m from the seaside but stainless steel or aluminum shall be applied to contact solar PV Modules.

What if a Longi PV module is broken?

To inform the LONGi customer service personnel within two weeks when modules are found broken or other significant abnormality. Refer to the "LONGi PV Module Operation and Maintenance Manual" for details on module maintenance.

This document provides installation instructions for LONGi Solar PV modules. It discusses module identification, electrical and mechanical installation requirements, safety precautions, site selection, tilt angle selection, mounting ...

Aesthetic Appearance - Hi-MO 6 simplifies the complexity and redefines the aesthetic concept of photovoltaic

Longi photovoltaic panel label

module. Longi Solar is one of the largest silicon producers in the world and a specialist in mono-crystalline cell and panel ...

Longi's 530W Hi-Mo5 panels are made up of 66 cells, providing a great power output to size ratio and excellent performance - achieving over 21% efficiency. The product family is designed mainly for residential and C& I rooftop systems.
