2024 has proven to be a tough year for large solar companies. If you've been following the news, you've probably noticed that the list of solar companies going out of business seems to keep getting longer. A confluence of factors, like higher interest rates and energy policy changes at the state level, have left some solar companies struggling to stay in business.

There are generally three types of solar O& M services: a dedicated O& M provider, an installer-supplied O& M, and inverter monitoring solutions. Dedicated solar O& M providers A dedicated O& M provider is a third-party company (not your solar installer or equipment manufacturer) that you hire to monitor and maintain your solar panel system.
