

Material safety data sheet for lithium batteries

Are rechargeable lithium-ion batteries hazardous?

3. Hazards Identification The rechargeable lithium-ion batteries described in this Product Safety Data Sheet are sealed units which are not hazardous when used according to the recommendations of the manufacturer and as long as their integrity is maintained.

Is lithium ion cell a hazard identifier?

HAZARD IDENTIFICATION NOHSC STANDARDS: This product is an article and is not required to be classified under any jurisdiction. The lithium ion cell ingredients are contained in a hermetically sealed case, designed to withstand temperatures and pressures encountered during normal use.

What is a lithium ion battery?

The lithium ion cell ingredients are contained in a hermetically sealed case, designed to withstand temperatures and pressures encountered during normal use. As a result, during normal use, hazardous materials are fully contained inside the battery.

Are batteries exempt from MSDs requirements?

The batteries referenced in this document are considered "Articles," not "Materials," as defined by the Occupational Safety and Health Administration's Hazard Communication Standard, and as such are exempt from the requirements to publish MSDS sheets per the Code of Federal Regulations 29 CFR 1910.1200 (b)(6)(v).

Do batteries need a safety data sheet?

The requirement to publish a Safety Data Sheet applies to all suppliers of substances and preparations. As already defined under the former Directive there is no requirement to develop and maintain a Safety Data Sheet for products such as Batteries.

Are batteries exempt from GHS SDS classification criteria?

Articles, such as batteries, are exempt from GHS SDS classification criteria. The GHS criteria are not designed or intended to be used to classify the physical, health and environmental hazards of an article. Inhalation: Contents of an open battery can cause respiratory irritation.

MSDS - Lithium Polymer Battery Issue Date: 2021.01.27 N/A = Not Applicable Page 1 of 5 MATERIAL SAFETY DATA SHEET The batteries are exempt articles and are not subject to the OSHA Hazard Communication Standard Requirement. This sheet is only provided as technical information and is referred normal use of the product in question.
